

Specification

**AppliFect LowTox**

**A9027**

<b>Product Code:</b>	A9027
<b>Product Name:</b>	AppliFect LowTox
<b>Short Description:</b>	additional product description: Reagent for transfection of very sensitive, eukaryotic cells.
<b>Specifications:</b>	<ul style="list-style-type: none"> <li>: • approx. 500 (24-well) or approx. 200 (6-well) transfections per 1 ml</li> <li>: • lowest toxicity</li> <li>: • very high expression rate</li> </ul>
<b>WGK:</b>	nwg
<b>Storage:</b>	-20°C
<b>CS:</b>	38220000
<b>Comment</b>	<p>AppliFect LowTox is an improvement of AppliFect. While developing this new reagent, the goal was to achieve highest compatibility with many cell lines and highest transfections efficiency. The transfected DNA is rapidly released within the cytosol from the lipoplex of cationic lipids and colipids. The reagent is supplied as a sterile, aqueous solution. AppliFect LowTox is shipped at ambient temperature. Please freeze upon arrival.</p>
