

Specification

YT-Medium - Powder (2X)

A0981

Product Code:	A0981
Product Name:	YT-Medium - Powder (2X)
Short Description:	usage: to set up a 2X concentrated liquid medium
Specifications:	<p>Osmolality: 286 - 316 mOsm/kg H₂O</p> <p>pH (25°C): 6.7 - 7.3</p> <p>Composition:</p> <p>Yeast extract (A1552): 10 g/L</p> <p>Sodium chloride (A1149): 5 g/L</p> <p>Tryptone (A1553): 16 g/L</p>
WGK:	1
Storage:	RT
CS:	38210000
Comment	<p>The packaging sizes differ in terms of the amount: you can choose between packages in liter (L) or gram (g) and kilogram (kg), respectively. Liter packs dissolved in the corresponding volume will give the correct concentration. When using the gram and kilogram packs, aliquots of the powder have to be dissolved. To prepare one liter of YT-Medium, 31 g of powder are dissolved. Directions for the preparation of 5 liter (2X) liquid medium: Dissolve the content of the whole 5 L pack in approx. 4500 ml water; adjust the pH with 5 N NaOH to 7.0, and fill up to 5000 ml, aliquot and autoclave. Storage: RT (after autoclaving). Antibiotics and nutritional supplements should be added only after the solution has cooled to 50°C or below, since many of them are heat-sensitive.</p>
